Personal Protection that helps minimize the risk of fire or explosion.

With the introduction of the 3M Versaflo TR-800 Powered Air Purifying Respirator (PAPR), you can give the people in your care a high level of respiratory protection and help minimize the risk of fire or explosion.

- Ergonomically designed for greater movement in tight work spaces during plant turnaround and maintenance activities.
- Simplifies PPE compatibility challenges for contractors with a solution designed to provide integrated respiratory, eye, face, and head protection.
- Designed for plant areas where work permits require Intrinsically Safe (IS) rated equipment.
